AP® Biology | College Biology | Khan Academy

Unfortunately, because the newest version of the AP Biology exam only began being administered in 2020, there aren't that many review books available for it. Still, because not much actually changed in terms of content between the 2013-2019 version of the test and the current version, it's OK to use books that target the 2013-2019 AP Biology exam.
