Budgeting for health - WHO

It's hard to abandon a ritual. That's one reason why organizations continue to hang on to the traditional annual budgeting process. They hang on even though the tough and resource-intensive budget process ultimately produces results of questionable value. For example, a 20-hospital system with locations in four states, was spending seven months on its annual budget, while a 3-campus academic institution in the Southeast was spending \$10 million on their budget process, only to find it to ...

12 Budget Principles That Create Positive Change in Healthcare

Budgeting is important in any organization. In healthcare, department level budgeting is often managed by healthcare professionals and managers with little or no financial background. Managers may be promoted from the front lines as they have demonstrated a strong understanding of department function, or are hired with significant work-related experience and/ or possess advanced education.
