### Natural resource economics : notes and problems : Conrad ...

"Jon Conrad's second edition of Resource Economics is an articulate, well-organized presentation of key applications of intertemporal economics to problems of natural resources. More than a routine update of the first edition, it admirably balances theoretical rigor and clarity in the presentation of models, with the kinds of institutional discussions that motivate students to think about research questions."

Stoicism. According to its teachings, as social beings, the path to eudaimonia (happiness, or blessedness) for humans is found in accepting the moment as it presents itself, by not allowing oneself to be controlled by the desire for pleasure or fear of pain, by using one's mind to understand the world and to do one's [...]
